

PRICE AND VICINITY

J. H. Manson returned Wednesday from a trip to Scotland and Salt Lake City.

John S. Baxo, of Hiawatha, is the father of a boy. The young man arrived last Friday.

Vigilia Bros., grocers, commenced advertising in this impression of The Advocate. Elsewhere will be found the ten commandments which they have adopted in their business.

C. H. Stevenson, chairman of the hall messes county central committee, went up to Zion Monday in connection with political matters.

Miss L. M. Broyles has been appointed postmaster at Scofield. W. D. Hillman, the present incumbent, was not an applicant for the position.

The house bill introduced by Representative J. Tom Fitch making wife beating a felony and providing a whipping post for offenders was killed by the committee in which it was referred.

The general offices for the state of Utah of the Pacific Mutual Insurance company were opened this week in the McDonald Real Estate & Investment company. N. A. Williams is the general manager.

We are now established in our new quarters in the Vigilia & Bonomo building, corner Eighth and Main streets, where we will be glad to have all our old patrons call on us. Goodman's Repair Shop.

The Guthrie-Brocker Auto company has made arrangements to show the new public the great Ford Auto company in full operation of making and assembling the famous Ford car at the Eko theater tonight.

D. D. Houtz, attorney for the Consolidated Fuel company, was transacting business in Price Monday and Tuesday. He returned to Salt Lake Wednesday and will be down again in the latter part of the week.

District Attorney J. W. Cherry sees a vast amount of work ahead of him in San Juan county. There is little doubt but that the present Indian trouble at Bluff means a good many indictments against the Putes.

The Kozz lunch room has rented the room in the new Crockett building on Main street formerly occupied by the Mission Pharmacy. Proprietor McMullin will be installed in the new quarters by the first of next week.

The Advocate hears that the Myton people are very much interested in the proposed auto line from here to the reservation and are not only willing to give it business and backing support but contribute to the project as well.

L. D. Hayrell and W. H. Campbell, who have been engaged by the new proprietors of the Parkdale townsite addition as selling representatives, spent several days in Price this week. They will sell all the lots at Goldfield and other towns in Nevada.

Mrs. Janet Lindsay died at Hiawatha yesterday. About a year ago Mrs. Lindsay lost her husband in a mine explosion at Dawson New Mexico. She leaves a father and a thirteen-month-old baby. The funeral will take place in Price tomorrow.

Price visitors to the California fair, Mr. and Mrs. J. M. Whitmore, Mr. and Mrs. Wallace Lowry and Dr. Pak, write to friends here that they are enjoying every minute of their trip and are taking in all the sights from San Diego to San Francisco.

One of the model business establishments in Price is that of the Gem bakery. Everything is absolutely clean and sanitary throughout and has attracted the attention of Miss Frost, instructor of the high school domestic science department. She will take her class through the establishment during the week.

The February issue of the Carbon was distributed and mailed Monday. The cover for the month is very well done by the staff artist with pictures of Lincoln and Washington. For the balance of the term the students are planning to get out the Carbon in newspaper form.

N. A. Williams returned Tuesday from Ely, Nev., where he went for the Consolidated Fuel company to test shipments of coal from the company's mines. Considerable trouble was being experienced in claims for shrinkage at the Nevada point of destination and Mr. Williams was engaged to ferret out the difficulty. He rode the cars from here to Ely.

Reports from Black Hawk are not favorable that the fire in the mine has been wholly extinguished. Workmen have not been able to penetrate the tunnel for more than a few hundred feet. The fan was started the first of the week to cool off the mine but it is quite probable that the fire is still burning at the face of the tunnel and in all probability the opening will again be sealed up.

H. A. Hart writes The Advocate from Denver that he will not go to Kansas City as he finds that Denver automobile agencies are well equipped with stage cars, such as he believes will be the proper installation for the Price-Vernal route. Mr. Hart is of the opinion that a rather expensive car to start off with will prove more efficient than a low priced one and that the saving in gas and repairs will more than make up the difference in first cost.

The Gould lines will put on a new train, the "Seaside Limited," April 12, between St. Louis and San Francisco, to be made up of all steel coaches of the latest and most convenient pattern. The new train will leave St. Louis at 2 p. m. and arrive San Francisco at 5:45 p. m. the third day, making the run in 72 hours and 45 minutes. The train will leave San Francisco at 3:10 a. m. and reach St. Louis at 4:15 p. m. the third day. These will be the first solid trains operated between St. Louis and the Pacific coast.

SCOUTCRAFT IN PRICE.

By M. O. Maughan, Scout Master. What is scoutcraft and of what value is it?

Scoutcraft is relatively a new movement begun to enlist the boys between 12 and 15 years into an organization the purpose of which is to prepare the boy for life. The world wide scout motto is "Be Prepared."

The scout plan is not military in its nature, but on the other hand it is a plan advocating universal peace. It teaches, however, among many other things, loyalty, patriotism and civility.

The boy scout movement is relatively a late movement, but has now spread all over the civilized world, and we now hear of boy scouts even in the world war now raging in Europe, assisting the relief societies, Red Cross organizations, gathering crops and in some instances guarding communications and carrying dispatches.

The boy scout movement takes the boy at 12 or over, never under 12, and places him in a patrol of a troop. Eight boys constitute a patrol, and generally three patrols a troop. The troop is under the direct supervision of a scout master.

Boy scout work is all systematized, and the boys first become, on passing an examination, a tenderfoot, then a second-class scout, then a first-class and later a life scout, a star scout, and an eagle scout. On successfully passing the tenderfoot examination the boys then become scouts on taking the scout oath, which is as follows:

"On my honor I will do my best: First. To do my duty to God and my country and to obey the scout laws.

Second. To help other people at all times.

Third. To keep myself physically strong, mentally awake and morally straight.

The scout laws which the boys promise to obey are:

1. A scout is trustworthy.
2. A scout is loyal.
3. A scout is helpful.
4. A scout is friendly.
5. A scout is courteous.
6. A scout is kind.
7. A scout is obedient.
8. A scout is cheerful.
9. A scout is thrifty.
10. A scout is brave.
11. A scout is clean.
12. A scout is reverent.

In order to fulfill the scout oath, the boy scout takes up such work as first aid, life saving, tracking, signaling, nature study, including a careful study of our common plants, and our animals and hundreds of other subjects.

Boys can do special work and in return get merit badges for the same. Some of these subjects are agriculture, architecture, art, astronomy, athletics, automobilism, bee farming, bugling, business, carpentry, chemistry, civics, cooking, dairying, electricity, forestry, gardening, machinery, mining, music, painting, personal health, photography, plumbing, poultry, printing, public health, scholarship, surveying, swimming, taxidermy and numerous others.

One thing is certain, that if the boy scout work can do all it stands for, it is the best organization yet effected for the youth.

But even if it doesn't do all, but only a part, the returns from the same will be all beneficial, and help materially in one's life. One wonderful thing about boy scout work is this: That when the boy decides for himself and on his honor to do good, that there is by all means a greater chance for him to do good than if he never was converted to it. If one can only be led to see the value of doing good, he generally will do good.

Boy scouts on their honor promise to keep the oath, and in keeping the oath they keep the scout laws. What a wonderful plan is this boy scout movement!

Such a movement should have the hearty support of all the citizens in every community.
